## Corner Shelf Kit

Armour Corner Shelf Kits provide storage space in your barn or stable in an area previously unused due to the nature of the corner itself. These sturdy kits come complete with two aluminum angle mounting brackets which are predrilled, installation fasteners for securing the shelf in both areas and the sturdy 3/4" thick corner cut lumber insert. Each shelf will support one hundred pounds easily when installed with fasteners furnished.

(1.) Select location, mark holes

(2.) Mark both angle brackets level with adjacent bracket

(3.) Fasten both brackets (level) against corner walls level with adjacent bracket

(4.) Position pre-cut lumber shelf

(5.) Hold shelf in desired location

(6.) Fasten screws through brackets into shelf

(7.) Paint if desired & shelf is ready to provide additional storage
